Ruddy's Review is published by Ruddy Investments, owned and operated by James F. and Nancy Ruddy. Our offices are on Hollywood Blvd. directly across from the famous "Hollywood's Times Theatre". If you plan a visit in the Los Angeles area let us know and we will be happy to have you visit us.

We have doubled the size of this issue of RUDDY'S REVIEW and it is twice the size of previous issues. We hope to continue with this size and format in the future. The response from the last REVIEW was so great that it took us a while to restock. We purchased several nice collections recently and offer a few complete sets from these collections as well as many choice individual items. The A.N.A. convention in St. Louis was an excellent source of new material. It seemed as if we were buying morning 'till night. In fact there were times at the bourse table when the lines waiting to see me were 4 across and 3 deep. (More on the fabulous A.N.A. convention later). Purchases ran from colonials through gold but we concentrated on choice type material. Our stock of coins is now the best it's been in years. I'm sure you will find something of interest listed in the REVIEW.

By now most of you have heard the news about my new book "PHOTO-GRADE". The idea for this grading book was developed over two years ago. I spent the first year or so photographing coins. I took over 5000 individual pictures in order to pick the most perfect pic-

ture to represent a particular grade. In some cases I had to take pictures of 20 different coins to get one good picture of one condition. The research and writing of the grading descriptions took six months time. The mechanics of finding a quality printer, choosing the format and designing the cover and proof reading took three months time. "PHOTOGRADE" was unveiled at the St. Louis A.N.A. convention. The acceptance of the book was simply overwhelming both at the convention and through the mail. I received telegrams, letters and calls of praise for "PHOTOGRADE" from some of the most famous names in the numismatic world. The almost unanimous opinion of collectors and dealers alike is one of gratitude that at last there is a reference book that will solve the biggest problem in our hobby - accurate grading!

Orders have been coming in at an unbelievable rate. We sold out of our first two printings and are well into our huge third printing, (five times the size of the first). Extra help was added to take care of the avalanche of mail and of course Nancy and I burned the midnight oil to hurry the books on their way.

If you haven't seen a copy of this widely accepted and acclaimed reference book ask your local dealer to show it to you or simply mark the space provided on the order blank and send it to us. We'll send you a copy postpaid immediately.

The A.N.A. convention in St. Louis was a tremendous success in every way. The bourse room was well laid out and perfectly lighted. The collectors were eager to both buy and sell and the dealers were doing the best business they have done in 4 or 5 years. Business was so good that it acted as a catalyst for the long awaited return of the coin boom. Since the convention, sales have more than doubled with us and I hear much the same talk with my colleagues.

The A.N.A. should be congratulated on an excellent show. A special thanks to David L. Cooper, General Chairman and John S. Stevenson, Bourse Chairman, for their fine work.

Type coins are in feverish demand. More and more collectors are expanding their collecting interests by collecting the different types of U.S. coins instead of one of each date and mint. This enables many collectors who would be unable to complete a full set of coins to have a representative sample of each type. There are a number of types which were made in only one or two years and the demand has created a definite scarcity for these pieces. The early 1793 half cents, 1793 cents, 1794-5 as well as 1796-7 half dimes, 1796-7 dimes, 1796 25¢, 1794-5 50¢ and 1794-5 \$1 are examples of these sought after types. There are many later date types minted for only a short time that have definite price appreciation potential i.e. 1857-8 flying eagle 1¢, 1859 1¢, 1909 VDB 1¢, 1885 no cents 5¢ in Proof, 1913 type 1 5¢, all 20¢ pieces, 1917 type 1 25¢ and all Unc. and Proof trade dollars to mention a few. If you still need these coins for your type collection you had better get them now before the prices increase substantially.

COLONIAL

COINS

I am very proud to offer, for the first time in my 16 year numismatic career, the extremely rare Willow tree shilling. I specialize in colonial coins because I collect and enjoy them so much. Up to now I have never owned or handled a Willow tree piece of any denomination. The very few I have ever seen were either in museums or private collections.

The following offering of two pieces is in itself a rare event. You would have to look for years to find an offering of even a single piece! If you have ever wanted to own a Willow tree piece this might be the only chance you will have for many years to come. Since the average condition of Willow tree coins is quite low, the condition of these pieces should not be considered too low to be collected as a representation Willow tree coin. A very fine piece if it were available, would probably bring \$10,000.00.

I am sure you will be as proud to own one of these outstanding rarities as I am to offer them.

SUPERB COLLECTION of CONNECTICUT CENTS. In a recent article, Maurice Gould called colonials "the sleeping giant of American numismatics." Nowhere is that statement more pertinent than to Connecticut cents. The present offering is an example: for less than \$45 per coin you can buy one of the choicest and most complete collections ever formed of this series - a collection equalled by few museum exhibits anywhere in the world!

The collection contains virtually every major type and die variety from 1785 to 1788. For Connecticut cents the condition is superb - many are VF, EF, or even better - conditions rarely seen among coins of this series.

Connecticut cents are fascinating, are rich in historical interest, and are rare. There are many pieces in this collection - that's right MANY - of which fewer than five or ten others exist anywhere.

This collection will start you "at the top of the list" among colonial coin collectors and will,

in our opinion, provide you with hundreds of hours of numismatic enjoyment. Each coin is different - not just in a date or mintmark sense - but in an entire die sense as the dies were individually hand crafted. Your satisfaction with this collection is, of course, guaranteed. The pieces are attributed by Miller numbers according to Henry Miller's "State Coinage of Connecticut" book. Over 230 different coins are in this collection. As noted, our price comes to less than \$45 per coin! The collection: \$9950.00

COLLECTION of Vermont copper coins. The finest collection ever offered for sale! The group is listed by Ryder numbers and is complete from Ryder No. 1 through Ryder No. 38 with the exception of two pieces, R-32 and R-34. The condition averages VF to EF throughout, with only one or two exceptions. The rare Ryder No. 1 (the IMMUNE COLUMBIA) is Very Fine and is the nicest we have ever seen; the extremely rare Ryder No. 5 is Abt. Good (this is the lowest condition piece in the entire collection - and is one of just two or three pieces grading less than VF or EF); the exceedingly rare Ryder 30 (with backwards C in AUCTIONER) is AU. This collection is the most complete set of Vermont coppers ever assembled and contains thirty six different varieties. In addition, a group of overstrikes, different die states, and others are included to lend additional interest. It is doubtful if any amount of money could assemble a collection that would come close to this one. \$52,500.00

THE NEW STANDARD REFERENCE BOOK FOR GRADING U.S. COINS

Up to now, coin grading has been the single biggest problem in numismatics. Books available to collector and dealer alike were either inadequate or incomplete. Some references showed only a few types of coins and most of them contained illustrations and descriptions of only one side of a coin. Others used line drawings which simply could not accurately show wear. Often, serious and costly mistakes have been made in grading due to the lack of explicit grading instructions. A new coin reference book just published by an internationally-known professional numismatist solves the grading problem forever. The title of this important new book is

PHOTOGRADE: A Photographic Grading Guide For United States Coins. Its purpose is to bring a positive new standard to professional grading practices for all U.S. coins.

PHOTOGRADE contains more than 1000 top quality, high resolution coin photographs which, along with the accompanying accurately detailed OBVERSE REVERSE descriptions, will enable you to expertly grade any U.S. coin . . . even Colonial coins! Never again will you have to wonder how the reverse of a particular grade should look or speculate as to how much wear it should show. PHOTOGRADE actually shows you

THANK YOU FOR YOUR BUSINESS YOUR ORDER WILL BE

Next to the information on the coin, such as date, mint mark, or denomination, the grade is THE most important fact you must know in order to correctly determine the true market value. Any catalog or pricing guide will show a range of current values. And for any coin these might range from \$1 to \$25 or \$5 to \$100 or \$50 to \$1000. IF YOU CANNOT CORRECTLY GRADE COINS YOU MAY BE THROWING YOUR MONEY AWAY! This is why a copy of PHOTOGRADE is an absolute necessity for every coin collector and dealer.

Trying to match your coin with an artist's line drawing conception of how he thinks various stages of wear on a coin should look can be frustrating. With PHOTOGRADE there is no guesswork. You simply match your coin to actual coin photographs and determine the grade. You will be delighted with the clear and detailed grading descriptions found in this book, accurate descriptions backed by the author's 16 years of professional coin dealing and an even longer personal collecting experience.

The problems which had to be overcome in the preparation of PHOTOGRADE were enormous. During a period of over two years, more than 5000 photographs were taken of over \$300,000.00 worth of coins. Everything had to be perfect. The proper lighting and lens settings for photography, as well as the most perfect coin of each grade. As a result of this painstaking work, more than 1000 photographs of over \$100,000.00 worth of United States coins appear within the 208 pages of PHOTOGRADE.

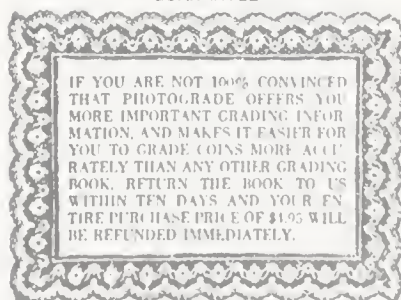

And PHOTOGRADE is more than just photographs. It is a wealth of concise information valuable to any collector. For example, did you know that without expensive equipment, you can perform a quick test on practically any coin which immediately spots crude casts and electrotype fakes. This information is not available in any other grading book. It is information that, alone, is worth more than the \$4.95 price of the book. In PHOTOGRADE, you will also read about how to clean and store your coins. Even how to grade Colonial coins! PHOTOGRADE also describes the

important differences between Choice and Gem Uncirculated. A number of coin photographs show such interesting variations as die breaks, overdates, re-engraved dates, and adjustment marks. As noted numismatist O. David Bowers writes in the book's foreword, "The reader is the benefactor."

If it could be made available, what would you expect to pay for a beautiful photographic presentation of a complete U.S. type set, showing a choice example of each of the 79 major types of U.S. coins? Ten dollars? Twenty dollars? This is exactly what you get FREE with PHOTOGRADE.

No expense has been spared in the creation and preparation, and presentation to the numismatic field of the most comprehensive coin grading guide ever published. The information contained in this unique reference book is worth many times the low price of only \$4.95. But we want to let PHOTOGRADE prove its value to you with an unconditional, guaranteed FREE TRIAL OFFER. We realize that this book is of no value to you unless it can save you money and PREVENT YOU FROM MAKING COSTLY GRADING MISTAKES. Simply fill out the order form at the bottom of this page and mail it to us today. A copy of PHOTOGRADE: A Photographic Grading Guide For United States Coins will be mailed to you POSTPAID immediately. Examine it, read it and check the coins in your own collection for TEN FULL DAYS. We present one of the most spectacular offers ever: a group of 2,274 1967 Guyana Brilliant Proof Sets. The mintage of these sets is an accomplished fact - only 5,100 were made three years ago. From the original distributor comes this fabulous group. Each set is in perfect brilliant Proof condition. For a set with a mintage of 5,100 you might expect to pay \$15.00, \$25.00, and even more. As a matter of fact, some sets with far, far higher mintages have had original issue prices of over \$40.00.

No, we're not going to charge you \$40.00, or even \$25.00, or, for that matter, even \$15.00! Unbelievable - a low, low mintage Brilliant Proof Set for less than \$15.00? Yes, read on!

These sets are offered on a first-come, first-served basis at just \$9.95 each! Or, if you're a dealer or quantity buyer you can buy ten or more sets at just \$8.95 each! There is a limit, how-

ever: like "struck to your order" sets in which the number minted is dependent upon the number of orders received (if orders for 20,000 or 50,000 sets are received, 20,000 or 50,000 sets are struck), the mintage of the 1967 Guyana set isn't a big mystery. Its rarity is already a known fact. For this reason, we will have to return any orders once the 2,274 sets we have are sold. So, we urge you to get your order in early.

Features to consider of these perfect Brilliant Proof 1967 Guyana Sets:

1. The sets are perfect Brilliant Proof gem pieces. As the pieces are already minted and the Proof condition is a fact, there is no question as to the quality of these coins as there is with unissued sets.

2. The sets were struck at the ROYAL MINT in LONDON. This is an OFFICIAL GOVERNMENT MINT that has struck Proof Sets for hundreds of

years. You are assured of the finest Proof quality - gem pieces with mirror fields and frosty high portions.

3. There is no guesswork about the mintage. Will you send your money thinking the sets will be rare only to find that tens of thousands were minted? No! You know the set is rare! Only 5100 were minted, and this places the 1967 Guyana set among the rarest Proof Sets issued in this century.

4. Each set comes in an OFFICIAL GOVERNMENT PRESENTATION CASE lined with silk and velvet. The Royal Mint emblem appears on each case. Furthermore, each coin is individually protected in its own sealed plastic envelope for shipping.

5. There's no waiting for months until the coins are ready. We have them in stock now!

6. The denominations of 1 cent, 5 cents, 10 cents, 25 cents, and 50 cents

are the same as that used for United States coinage. The legends of the coins are in English.

7. The low, low price of \$9.95 per set is much less than many sets with far higher mintages have sold for.

8. There are no handling or other charges to pay. Our low price INCLUDES this!

We expect these gem Proof Sets to sell QUICKLY. So, we recommend that you airmail your order today. As no other quantity such as this will ever become available, this is truly a unique opportunity.

Prices include postage. Calif. residents add sales tax or furnish resale permit.

We have provided a section on the order blank for ordering these Guyana Proof sets.

????????????????????????????????
 Why second choices?
 Though your alternate of choice will not be used unless your first choice has been sold, this policy helps us and helps you too...the chances of an inflated price are minimized. Many of these coins are necessary to the collector and difficult for me to replace. I obtain duplicates in short notice. In fact, the only difficulty of my professional numismatic service is making, it is inquisit! Satisfy graded and new coins, please call themselves.

A UNIQUE COLLECTION

We offer the only complete set of dates and overdates Flying Eagle and Indian cents available in the world!

Complete from 1856 through 1909-S it includes a Gem Brilliant Uncirculated 1858 over 7 Flying Eagle cent. This coin is pictured and listed on page 81 of the "Guide Book". It is unpriced in this reference work. I have handled only one other uncirculated specimen and it was not as nice as this. In fact, I have never seen a finer 1858/7 than the one in this unique set.

The next outstanding piece is a Gem Brilliant Uncirculated 1867 over smaller 7 1¢. Scarce in circulated condition, it is rare in BU and extremely rare in Gem BU. There is naturally a Gem Brilliant Uncirculated 1869 over 8 1¢.

Last but not least is one of the two uncirculated discovery pieces of the 1888 over 7 1¢. After one year of searching by hundreds of thousands of collectors only one other 1888 7 1¢ has been discovered. A specimen in Good condition was found by Raymond E. Jones of Bear, Delaware. What is the true value of an important overdate in the most popular series when only 3 pieces exist? An uncirculated 1918/7-D Buffalo nickel is worth \$5,000.00 and there are many hundreds of these overdates in existence. A 1913 Liberty head nickel is reportedly worth \$100,000 and 5 pieces are known. A notarized statement that this coin is one of the two discovery pieces and a guarantee of genuineness comes with this collection.

The date set itself includes a Gem BU 1856 Flying Eagle cent which is an outstanding specimen. The set is hand picked Gem Brilliant Uncirculated and put together many years ago.

This set will be custom housed in plastic (your choice of color) with the name of the purchaser inscribed. Truly an outstanding showpiece and unique rarity.
Price-----\$12,950.00

A complete set of Indian Cents from 1857 to 1909-S (no overdates) every coin is BU or Br. Proof (10 Proofs) except the 1877 which is EF. From the A.N.A. Auction, this is General M.S. Newton's personal set which he put together many years ago. Guaranteed to please the fussiest collector. (If you want the BU 1856 F.E. 1¢ from this collection we can supply it for \$1550.00). This set was a sleeper in the A.N.A. auction and went for less than wholesale. You can benefit from this fortunate purchase as we are pricing this set at more than 35% off catalog. Beautifully housed in an attractive plastic holder----- 3250.00

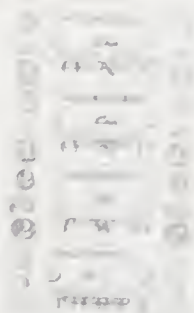

Complete set of BU Lincoln Cents 1909 to 1954 (no 1922 Plain) an undervalued set today---- 2500.00

Set of Brilliant Proof Barber dimes one coin of each date from 1892 to 1915. Contains the rare 1895, 1913, 1914, and 1915 issues as well as all of the other dates made in Proof. The beautiful design of the Barber dimes combined with the choice condition of the specimens we offer here make this a splendid showpiece at----- 2495.00

Complete set of Barber Dimes 1892 to 1916 (no 1894-S) Good to Fine. Every coin was hand picked to have a full rim on the reverse as well as the obverse. The minimum condition is a strong G with many in VG and F. A much better than average set. Housed in album----- 340.00

A matching complete Barber Quarter set 1892 to 1916: Put together by the same collector, this strictly G (full rims) to F set would take a long time to duplicate. The 1901-S and the 1913-S are both almost AG. There are many AG and F. Housed in an album----- 595.00

DISPLAY A PART OF AMERICAN HISTORY

Special:

3 Different sheets including the one with the \$3 bill. Only 29.95

A BEAUTIFUL NUMISMATIC DECORATION

Only a few sheets left of a small old-time hoard of obsolete currency in mint sheets of four notes. These original sheets were all printed by banks before the United States began issuing paper money. Each sheet is over 100 years old. They measure approximately 8 1/2" by 14" and are of the highest quality in printing and design. When framed, these sheets make a colorful decoration and a fascinating conversation piece for any room in the house; (especially the sheet that contains the genuine \$3 bill). The craftsmanship and design of these bills certainly equals the beauty of our early U.S. notes, which would cost many hundreds and even thousands of dollars per sheet! Many of these sheets were printed by the famous American Banknote Company. Each note is printed in two colors.

We offer:

- 1 Sheet as pictured with 2 - \$1 bills, 1 - \$2 bill and 1 - \$3 bill----- 14.95
- 1 Sheet containing either 4 - \$5 bills, 4 - \$10 bills, 4 - \$20 bills or 4 - \$50 bills (Our choice) for only----- 12.50

We have just acquired a small old hoard of South Carolina state bonds. These are genuine 100 Pound bonds from 1871 with all of the interest coupons still attached. They have been slit cancelled so that it does not mar the beauty of these showpieces. A beautiful piece of American History from 1871 printed in 2 colors and genuine! Perfect for framing. A colorful and interesting display for office or home that is quite inexpensive. In fact, where else could you get a genuine antique decoration (that originally cost around \$500.00) for less than \$10.00? While the small supply lasts only \$9.50 each or buy two (they make wonderful gifts) for \$17.50.
